

Our Viking adventure

June 2010

We were taking a look at the Northern Hemisphere and its countries and we talked about Vikings and their ships. The children were really interested in the Vikings so we researched lots of information to share with them. We all made Viking hats and clothes and went for a ride in our "Long Boat". After that we went on a treasure hunt into the bush. We dug for treasure and found a wonderful tin box full of interesting things!! The children were very excited!!!
